

DISHONORABLE DISCHARGE AND FINE FOR NATIONAL GUARDSMAN

For disobedience of orders and refusal to turn out for formations of his regiment, Pvt. Clarence F. Levy of Company D, 1st Infantry, N. G. IOWA SENATOR IS INTERESTED IN TERRITORY

Senator Cummins of Iowa, noted Republican and generally acknowledged to be among the presidential possibilities for 1916, is much interested in Hawaii and on the congressional party trip here will make a special effort to inform himself on conditions here.

This news comes in a letter from Senator Clarence D. Clark of Wyoming to R. W. Breckons, incidentally, it indicates that though Senator Clark is unable to come here on the congressional trip, he appreciates the desire to have him as Hawaii's guest. The letter says:

"Washington, D. C., March 6, 1915. Honolulu, Hawaii.

"My Dear Mr. Breckons: 'I want to acknowledge with a great deal of pleasure your letter of February 25th and to thank you for the very kind expression therein personal to myself.

"I have been hoping for some time that I would be able to visit the territory during the present spring or summer, but find that I shall be precluded from making the trip. Nothing would please me better than to be there for a good rest-up and to renew old acquaintances and possibly make some new ones. Among the most pleasant recollections of my life are those connected with my two former visits to the island.

"Among the members of the congressional party who are planning to visit you this spring is Senator Cummins of Iowa, who has talked with me frequently about the territory and is very much interested in its welfare. You will find him a man not only of wide information but impressed with the desire to do whatever is for the best interest of the community.

"I hope you will remember me kindly to all my friends and with my best personal regards, I am, Yours very sincerely, 'C. D. CLARK'

OPPORTUNITY FOR HAWAII TO SUPPLY SUNFLOWER SEEDS FOR NEW YORK

Grow sunflower seed for the New York market is the advice received by Father Matthias from his sister in Brooklyn. The latter writes that the source of New York sunflower seed for poultry food has been Russia, and that since the beginning of the war the price of the seed has increased from \$12 to \$20 per hundredweight.

The letter suggests that if Hawaii could supply the seed to New York via the Panama canal there would be an immense profit at the present prices. Samples of desirable seed will be furnished.

Secretary Taylor of the Promotion Committee will give information to any local land owners interested in the proposition.
